Pay roll, \$283; other ex-penditures, \$559 29; total, \$847 29.

STEAM CARS TO THE GASWORKS, The following was referred to President Hadden to act:

To the Hon. David P. Hadden, President, and the Board of Police and Fire Commis-sioners of the Taxing District: The Memphis Gaslight Company hereby respectfully petition your hon-orable body for permission to put down a railroad south from the Louisville and Nashville railroad tracks at either the crossing of Main or Front streets (as your engineer may deter-mine best for all parties) into the coalsheds of the Memphis Gaslight Com-pany. The line desired to be run is on Front or Main street from Auction Mill street, and scross Mill into the vard of the Gas Company, a distance of about 700 feet. The purpose in view is to enable the Gas Company to run cars of coal into their sheds, thereby saving the expense of carting the coal from cars to shed. Your petitioners would also respectfully represent to your honorable body that the routes or route proposed to be run is now and will likely be in all time to come occupied by manufacturing establishments of one kind and an-other, and hence would not inconvenience or damage the property of anyone in the least, but rather be of convenience and value to all. Should you grant this petition the Memphis Garlight Company contemplates. course, doing the work subject to the direction and approval of the Taxing District through its engineer. Re-

spectfully submitted, MEMPHIS GASLIGHT COMPANY, By E. Ensley, President. Maurais, Tans., January 27, 1886.

PETITIONS FOR BEPAIRS. The following petitions for repairs not in accordance with the strict letter of the law were asked: Mrs. M. Coeta: To build a one-story

kitchen at northwest corner of Washington street and Bayou Gayoso. Re-

George Baymiller: To cover an open shed at 124 Jefferson street. Referred to President Hadden and Chief Cleary. Bob Green: To re-cover a shop at 53 Court street. Rejected. ESTIMATE OF COST. The Kansas City, Springfield and Memphis railroad submitted a statement, according to contract, of the cost of constructing its track from the north line of Linden street to the Ele-

vator, showing the same to be \$19,-652 36. Received. RIGHT OF WAY ON MISSISSIPPI AVENUE. The committee appointed to inquire into the cost of getting a right of way of forty-five teet for Mississippi avenue through lots 1 and 2, on the corner of LaRose and Calhoun streets, reported in favor of paying \$1000 to John Overton, jr., therefor.

Adopted. THE COST OF ELECTION. Sheriff Cannon submitted a bill of

The contract was read by the secretary, and is the same which was for-merly rejected by the railway. It was adopted by the board without change.

RESOLUTIONS. By Mr. Wallace: Resided, That street crossings be put across Main street, north side of Calbonn, and across Calbonn, ever

side of Main; some to be finished in thirty days. Adopted.

By Mr. Wallace:

\*\*Resolved, That a plank sidewalk be put down on the north side of Elliott street from Hadden avenue to Avery street; also plank sidewalk on north side of South street, from Avery to Hernando strest; rame to be finished in thirty days. Adopted. By Mr. Wallace: Resolved, That plank sidewalk be laid on the south side of Wright ave-

nue, from Georgia to Broadway, in the next thirty days by property owners.

By Mr. Montgomery : polecd, That plank sidewalks be laid on Orleans street, on both sides, from Tate street to the bayon bridge, and on the north side of Georgia, from Orleans west to Lauderda'e, within twinty days. Adopted.

OFFICERS ELECTED. President Hadden then announced President Hadden then announced that elections for inspector of weights and messures and president of the board of health were in order. Inspector Mhoon and Dr. Thornton were both unanimously re-elected. The wharf-master, hospital physician and city engineer all bold over.

NO CENSUS TO BE TAKEN. Mr. Lee, chairman of the Commit-Mr. Lee, chairman of the Committee on Census, stated that he had not accepted any of the bids, many of them low and from competent persons, because he wanted to hear the matter discussed further. The Council by a unanimous vote decided not to have the census taken. Adjourned.

Fire and Police Commissioners, At a meeting of the Fire and Police Commissioners Mr. Hadden was elected President and Capt, Jus. Lee Vice-President. Chief Davis and Chief Cleary and all their men were all reelected for the ensuing year, and their pay, officers and men was increased \$5 per capita.

THE RIVER BRIDGE.

THE MATTER DISCUSSED BY THE COMMISSIONERS.

Huntington's Great Deal-Entrond Circles Agitated-Connections At Fort Worth, Tex.

Immediately after the adjournment of the Legislative Council yesterday evening the Fire and Police Commis-sioners adjourned to President Hadden's private office, where they were closeted for an hour or more with Mr. A. P. Beller, whom, as stated by the APPRAL Tuesday last, is here for the purpose of making surveys and gathering data for the purpose of ascer-taining the cost of a bridge across the river at this point. Mr. Boller stands at the front rank of his profession, and has evidently convinced the commissioners that he is in earnest, and that those he represents have the means to cost is not so great as to be positively

prohibitory. Huntingdon's Lig Scheme. A few days since, in answer to an inquiry as to the extent of the diver-sion of business from the old lines, word was telegraphed the Pool Com mission that the Chesapeake and Ohio was not only taking from fifty to sixty cars of grain a day, but was taking beer, wool, provisions and, in fact, everything that was worth taking at from 4 to 6 cents below the trunk-line schedule, so it will be seen the situation is becoming slarming for the so-called short lines. Shippers, however, are very well satisfied with the way things are running. The opening of a new trade current between the grain and provision produc-ing regions in the West, and the East and Europe by the Chesapeake and Ohio railway, and the forcing of commerce from the old-estal-liehed thoroughfares to it was a bold undertaking on the part of Huntington, but the route is only opened, not established, and it remains to be seen what the outcome will be. For direct export the new line is a good as any, and for North-eastern Atlantic coast and interior points it will answer every purpose where quick transit is not required. But it is not what the Newport News route is or may be made that interests he public just now, but whether Mr.

Huntington is strong enough to suc-cassfully resist the power and influ-ence of the trunk lines which will be employed against his venture. Fort Worth, Tex. The Houston and Texas Central will soon have their road completed to Fort Worth, making five reads then terminating at that point. These roads are the Houston and Texas Central, the Gulf, Colorado and Santa Fe, the Missouri, Kansas and Texas, the Texas Pacific and the Fort Worth and Denver, all of which are there for the pur-pose of obtaining the business from the pan-handle of Texas, which comes to Fort Worth over the Fort Worth and Denver City railway. One of the branches that the Atchison, Topeka and Santa Fe is surveying with intent to build is from its main line along the southern border of Kangas into the pan-handle of Texas, there to connect with the Fort Worth and Denver City road, and in this way reaching Galveston, New Orleans and all points in Texas and Louisians.

The Texas Pacific, GALVESTON, TEX., February 4.-A special to the News from Waco says: A reorganization of the Texas and St. Louis railroad will take place in the next few days. It is understood that an Eastern man will be chosen president, and that the general managership will be tendered to S. W. Pordice, the present receiver.

THE CHARITY FUND. Final Meeting of the Managing Committee-A Reserve.

At the Peabody Hotel yesterday afternoon at 4 o'clock the Charity Ball Committee held a final meeting, Judge Greer presiding and F. R. Brenan act ing as secretary. Mr. Furstenheim Sheriff Cannon submitted a bill of \$280 for pay of judges, clerks and deputy sheriffs and advertising for the January election.

January election.

Ontract with city rankway.

President Hadden stated that the Fire and Police Commissioners had about come to an understanding with the Memphis City railway, providing for the paving of that street, to be used in the meantime by the company. They are to make a new rubble stone pavement from gutter to gutter, and to have any material they have already or may take away, a certain time,

Ton Have a Perfect Right, who will condomn understanding and for some unconverted friend or some unconverted friend and put in rate condition.

CHIEF CLEARY'S REPORT

OF THE FIRE DEPARTMENT FOR THE PAST YEAR, Necessity for More Engine Houses-

Improvements in Water Service Needed.

The report of the Fire Department or the year 1885 was submitted by Chief Cleary yesterday to the Board of Police and Fire Commissioners at their meeting. The following extracts will be found of interests:

THE WATER SUPPLY.

I would respectfully call your imme diate attention to the scarcity of water for fire purposes in several portions of the city, namely: The entire length of Front street, (Chelsea) the Ninth Ward, (Scotland) the Eighth Ward, (Fort Pickering) the Tenth Ward, and also in the neighborhood of the City Hopital. To remedy the above, as much as possible, I would suggest that you, gentlemen, induce the Memphis Water Company to lay a twenty or twenty-four inch main on a direct line from their works to Chickasaw street, Chickasaw to Front street, and Front street to Union street, with hydrants conveniently located for the protection of oil and saw-mills, cotton compresses and the Memphis Package and Grain Elevator. Fort Pickering imperatively demands at least fifty fire hydrants; twenty-five fire hydrants are actually necessary in Scotland, and about twelve in Chelsea. There should also be an eight-inch supply pipe extended from the water company's main out Union street as far east as the City Hospital. With the above additions, together with an underground inlet from the water mains to all fire cisterns, a better sup-ply of water would then be assured, and, in fact, are absolutely needed, for in the absence of an ample supply of water, no fire department can be effective. The Memphis Water Company have, up to date, about thirty miles of service mains, of several sizes, laid

throughout the city. CONDEMNED ROUSES, Orders to tear down houses were disposed of as follows:

Total number condemned ..... LOCATION OF PIRE-ALARM BOXES. I would respectfully urgs upon citi-sens the great importance of acquainting themselves with and committing to memory the exact location of the nearest signal box to their places of business and residences, so they will know, in case of fire, where to go to communicate with the department. In some instances, two or more signal boxes are pulled for the same fire. It is better to wait a few moments and give the other box ample time to perform its duties, then pull your box, and both alarms will be communicated correctly. Otherwise there will be a confusion which will undoubtedly mislead the department. I would also build a build a bridge, provided the advise people who rely upon telephones to give fire alarms, to always call the nearest engine company. requires no more time to telephone to

> the proper place. HOSE. There is now 3150 feet of good 21inch, and 200 feet of chemical engine hose in service; 1700 feet of new and 800 feet of good 25-inch hose in reserve, and 850 feet of poor, unservice able 21-inch hose, making a total of

6700 feet. HORSES. There are now twenty-four horses in the department. On account of poor condition several have been replaced during the past year. The condition at present date of twentyone is all that could be desired. There are three horses which are beginning to fail and will soon be unfit for this service. During the year three died, three were sold and five were exchanged. The best quality of feed is furchased. Average cost of feeding for the year, per horse, \$73. A long felt want for this department is a small pasture, say a few acres, con-venient to the city, where our sick and over-worked horses, in spring and summer time, could graze and recu-

EXPENDITURES. Supplies and repairs.....

851,397 11 Referring to the above expendi-tures, permit me to mention the fact that the Legislature of this State, in levying taxes, have allowed an 'equal amount for the support of the Fire and Police Departments of this city. The Police Department have six more than this department on their pay roll, and one station-house to maintain. The Fire Department fund must purchase horses, harness, sp-paratus, hose, feed for stock, horseshoeing, fuel, oil, lights, and repair and keep in good condition all enginehouses, apparatus, etc.; pay salaries to a force almost equal in number to the police; also maintain the firealarm telegraph and our water facili-

NEW ENGINE-HOUSES WANTED In my opinion there should be three additional engine-houses built, and a company organized and located in each of them for operation. One of these should be stationed in the neighborhood of Union and Front streets, another placed near Auction and Seventh streets, for the protection of Scotland and Chelsea (the Eighth and Ninth Wards), and the other located in Fort Pickering. The area to be protected is five and three-filths square miles, and the improvements that are being made in the city are of a large and expensive character, and absolutely demand more protection.

Notes. I would also call your attention to

the necessity of increasing the firealarm telegraph system by at least 100 additional alarm boxes distributed throughout the city. Of the sixty public cisterns in use at present fifteen are supplied by an

works. During the year 759 defective stovepipes were condemned and removed, and 520 defective flues and chimneys condemned and torn down, or repaired

Wendel MOODY AND SANKEY.

THE EVANGELISTS TO ARRIVE FROM NASHVILLE TO-DAY.

Where the Meetings Are to Be Held Likelihood That They Will

Be Lurge. Mesers. Moody and Sankey will arrive this afternoon on the Nashville train and begin their services at the Court street church to-night. Mr. Sankey begins to sing about half an hour before the formal opening of the services. Admission will be by ticket. The ticket secures admission until ten minutes prior to services when the doors will be open to all. There will be on the platform 100 singers, ladies and gentlemen selected from the choirs of the various churches in the city; fifteen pastors of churches in this city; nine editors and reporters representing the press of the city; twenty-one committeemen who have in charge all the arrangements of the meeting, and the proprietors of the Gayoso Hotel.

have been sent, on application, to ministers of various denominations in about a score of towns in easy reach of Memphis. These ministers will occupy seats in the congregation. To-morrow of 11 o'clock the service

will be for mothers only. No tickets required for this service. Enturday afternoon at 3:30 o'clock there will be a special meeting for ladies. Special meeting for men at

7:30 o'clock p.m. Members of the choir and holders of platform tickets will be welcome at every meeting, of course, but after the doors are thrown open, within ten minutes of time for beginning, none but ladies can enter the meetings

which are for ladies only, and none but gentlemen can enter the mattings which are exclusively for gentlemen.

Mr. Moody will hold four services on Sunday, one of which will be for the colored people at Avery Chapel on Descor attest. Desoto street. This immense building will hold nearly 3000 people. The Printing Committee has issued tickets and distributed them among the

COLORED PASTORS of the city. The first of the Sunday services at Court street will be at 8 o'clock a.m. Notwithstanding the early hour this meeting will be well atended. Twice as many tickets have been distributed for this service as for any other. If one-half the ticket holders get there the house will be crowded. Many will go because they have tickets for other service and are determined to hear Moody. Many will go because that hour will not conflict with duties which are as necessary on Sunday as other days. Others will select the early Sabbath service because of the impressiveness of the hour. The zealons and devont of all ages and of all religions have delighted in the "early sacrifice." The morning is suggestive of new ardor, fresh zeal, clear mind and purer thoughts. The patriarchs set up their memorial pillars

and their holy altars early in the morning. The earliest sacred poet sang about the "eyelids of the morning A general service will be held at 3:30 o'clock p. m. Sunday. A special service at night for men. It is probable that an "overflow" meeting will be conducted in one of the other churches Sunday night by one of the pastors appointed for the purpose. Due notice will be given. All the pastors will be in their own churches at 11 o'clock Sunday and some of them will be assisted by visiting ministers

LIST OF SERVICES. For the sake of reference the list of services is given in convenient form Following is the list of Mr. Moody's services at the Cumberland Presbyte-rian church, Court street, February

Friday, February 5th, 7:30 p.m., general meeting. Fajurday, February 6th, 11 a.m., for mothers only. Tickets not required. Saturday, February 6th, 3:30 p.m., ladies only. Saturday, February 6th, 7:30 p.m.,

men only. Sunday, February 7th, 8 a.m., general meeting. Sunday, February 7th, 3:30 p.m. general meeting. Sunday, February 7th, 7:30 p.m.,

men only.

THE CAPACITY OF THE BUILDING being limited, the ticket system was adopted by Mr. Moody's special request, to give every person desiring to hear him at least one opportunity to do so, by preventing identical parties from occupying and monopolizing all the seats at every meeting. It is very probable that inclement weather and other causes will prevent many ticket holders from attending, and as the doors will be thrown wide open to a'l ten minutes prior to service, every one that can then find places in the building will be welcome. Mr. Sankey, assisted by a choir composed of more than one hundred, will begin with musical service thirty minutes before the time named for regular service.

S. C. CALDWELL, Chairman Printing Committee. MEETING OF GENERAL COMMITTEE. There will be a meeting of the General Committee of Arrangements for Moody and Sankey to-day (Friday) at 12 o'clock, pastor's study, Court street church. Chairmen of special committees are requested to bring in their reports. It is very important to have all the arrangements perfected by room to-day.

derground inlet from the water-A correspondent sake, "How would it do for every Christian holding a ticket to Mr. Moody's meeting to give that ticket to some unconverted friend

TEN PER CENT ARRANGEMENT FOR COLLECTING TAXES

Due the Old City of Memphis-The Taxing District the Beneficiary.

The officials of the Taxing District

are about to take steps to reduce the

cost of collecting taxes due the old city, of which a large amount remains uncollected. By the recent statement of the debt of Memphis, the Taxing District having become responsible by the issuance of compromise bonds, the latter becomes the sole beneficiary of any taxes now collected. ally it is the desire of the Police and Fire Commissioners that the cost of collection shall be as small se possible. "Brook," would, under the law, run on forever, or antil all the taxes are paid, which would amount to the same thing, and the ex-penses incidental to his office would be, if continued on the present basis, something over \$8000, whether a dollar is collected or not. Five years ago, when the act was first passed, and Maj. Minor Meriwether was appointed, H. F. Dix was employed at a salary of \$2000 to assist him. The salary of the receiver was \$2000 a year, and of the receiver was \$2000 a year, and he was allowed large sums in addition as fees. At the expiration of a year the salary of Mr. Dix was reduced to \$1000 and Tavior & Carsell were employed at \$2000. This arrangement existed for a year when the salary of Mr. Dix was cut down to \$300 a year, the other firm being retained. That year, heades \$2000 to them and a like sum to the receiver, Meests. J. W. Mampton, Lee Thornton and H. F. Dix were allowed a commission on taxes collected through bills filed by them. In fact most of the litigation was conducted by them. And in addition to their expenses two clerks have been and are being raid \$1200 each. Several conferences have been held between Receiver Lamb and the Commissioners, and the Com-missioner, fully alive to the situation, is understood to be perfectly willing to adopt a plan which will lessen the expense of collection to the Taxing District. A proposition has been made to him to relinquish his title of receiver and become the agent of the Taxing District for the collect on of old city taxos, receiving a commission of 10 per cest, and paying all expenses out of that amount. This he has egreed to do, and if Chancellor Mc-Dowell does not interfere, as he is not likely to do, the city, who is the sole beneficiary, being satisfied, he will take Methalf & Walker into partnership with him, they assuming half the responsibility and receiving half the commission. The whole matter will, of course, have to be acted upon by Chanceller McDowell. Receivers Meriwether and Lamb have collected to far about \$1,000. 650,000, and there is about \$750,000 still due, of which probably \$400,000 is collectable. All claims against taxpayers delinquent to the cid city will have lapsed by March 31, unless bills are filed against them by that time.
